## Letter of Recommendation

To Whom It May Concern

It is my great pleasure to write this letter of recommendation for **Ms. Hibritu Diress Alemayehu**, who is a recent graduate of the Software Engineering program at Bahir Dar University. I have had the privilege of teaching her in the course **Software Testing and Quality Assurance**, and I have also worked closely with her in my capacity as the Program Representative. Throughout her academic career, she has consistently demonstrated exceptional dedication and a high level of technical proficiency.

During her coursework, Hibritu exhibited a deep understanding of complex software engineering principles. Her ability to analyze testing methodologies and implement robust maintenance strategies stood out significantly. She approaches technical challenges with a combination of logical rigor and creativity, consistently delivering high quality results that reflect a solid foundation in both the theory and the practical application of software development.

Beyond her technical expertise, Hibritu is a highly disciplined, ethical, and responsible individual. Her role within our department gave me further insight into her character; she is a proactive communicator and a reliable team player who approaches every responsibility with professionalism. She consistently demonstrates the leadership qualities and work ethic required to excel in demanding environments.

I have full confidence in her potential and her ability to succeed in her future endeavors. I wholeheartedly recommend Ms. Hibritu Diress Alemayehu for any further academic training, career or professional opportunities she may pursue. I am certain that she will be a valuable asset to any organization or institution she joins.

Please let me know if you need any further assistance.

Sincerely,

**Dr. Mekonnen Wagaw**  
Head, Software Engineering Program  
Bahir Dar Institute of Technology  
Bahir Dar University
